International Composers Collective - www.intercompcollective.com

The International Composers Collective is a unique and pioneering organisation. Created in 2010 by Timothy Mauthe (composer, USA), Sam Cave (composer and guitarist, UK) and Calogero Mario Panvino (composer, Australia) to promote, disseminate and create new music around the world, the ICC is a network of composers and performers which covers three continents. For its inaugural UK concert the Collective presents an intimate, yet thrillingly virtuosic concert of music for guitar and strings containing four world, two European and one UK premiere. Works by George Holloway, Sam Cave, Calogero Mario Panvino and Timothy Mauthe are performed by some of the hottest young musicians in the UK.
